Landlording Leigh Robinson,2014 This classic book on managing rental property, widely known among landlords and landladies as their bible, has been in print for thirty-nine years, has sold over 375,000 copies, and has twice been selected as one of the top ten real estate books of the year by nationally syndicated real estate columnist Bob Bruss. This latest edition has been thoroughly revised and updated and includes both the eighty-four forms in the previous edition plus TWO new ones. One of the new forms, the Household Pest Control Agreement, puts into words what both landlord and tenant need to

understand about their cooperating to deal with household pests, especially bed bugs. The other new form, Automatic Clearing House (ACH) Recurring Payment Authorization, enables tenants to pay their rent through an automated clearing house (ACH), so they needn't bother writing a paper check every time their rent is due. ALSO, new in this 12th edition is a coupon which the first purchaser of the book may use to receive free of charge all of the forms in the back of the book in common computer formats, PLUS a trial version of Pushbutton Landlording(R), the author's stand-alone program for handling the tenant and income sides of rental property management.

No Risk Ranching Greg Judy, 2002 Greg Judy was forced to liquidate his cow herd to pay debt in 1996. By the end of the following year he was dead broke and figured the family farm was history. A quote from Allan Nation, editor of The Stockman Grass Farmer magazine changed his whole view of ranching. Nation said, Your sole purpose should be not to own the land, but to make a living from the land. Inspired by that approach, Judy started looking for idle, non-developed pastureland. By focusing on leasing rather than owning land, his grazing operation grew from 40 stockers to 1100 head. By custom grazing on leased land he was able to pay his entire farm and home loan within three years. Today he has four farms and leases 12. No Risk Ranching, Custom Grazing on Leased Land describes how he found and managed his first and subsequent leases. He offers a detailed guide for other graziers to follow on how to find idle land to lease; calculate the cost of a lease; draft and write a land lease contract (with examples included); develop good water and portable fencing on leased land; promote

wildlife and improve timber stands; keep accurate records and more. No Risk Ranching was written to help other graziers from making the same mistakes Judy made. He writes, I am convinced that in the USA our pastures are one of our most underutilized natural resources. I am not against land ownership. I just feel like it is an awful hardship on a new blooming grazing business.
